

## Dear Head of Junior Maths

As one of the early leaders in eLearning in New Zealand, we want to offer high quality and affordable educational products at our **new** site licence price.

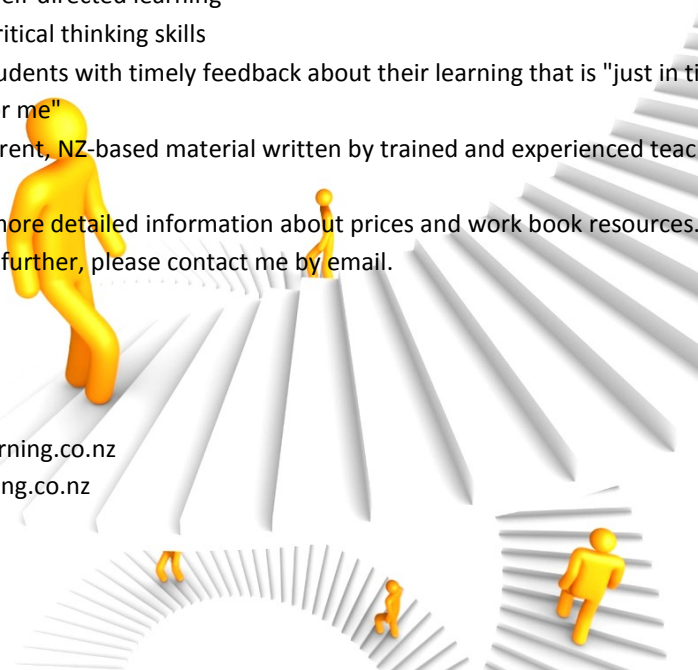

Our interactive website, [eLivewire](http://www.livewirelearning.co.nz), provides comprehensive teaching and learning material with thousands of self-marking questions in English, Mathematics, Science and Accounting. Our questions are graded at Achieved, Merit and Excellence for senior subjects and are being linked to the SOLO taxonomy (on which NCEA is based) for the junior English and Mathematics subjects. It also includes an admin suite for assigning work and tracking student progress.

Our inter-related resources and **new prices** (see below) therefore make Livewire Learning a very useful and affordable program that enables schools to

- Integrate eLearning easily into the classroom
- Provide class-based resources for their eLearning and BOYD programs
- Utilise the skills-based material to consolidate student learning anywhere anytime
- Facilitate self-directed learning
- Improve critical thinking skills
- Provide students with timely feedback about their learning that is "just in time and just for me"
- Access current, NZ-based material written by trained and experienced teachers

Please find below more detailed information about prices and work book resources. To order or discuss further, please contact me by email.

Kind regards  
Neil S Riley  
021 158 4288

## Costs

Decile 8-10 schools		
Numbers	Prices per student \$	Cost \$
001-200	9.00	1800
201+	7.50	1500+
Decile 5-7 schools		
001-200	6.00	1200
201+	4.50	900+
Decile 1-4 schools		
001-200	4.00	800
201+	3.00	600+

The Maths and English subjects, at any level, can be combined. At Year 11 Science and Accounting can also be added to this. For example, a decile 3 school with only 100 students at Year 11 could combine English, Mathematics, Science and Accounting (this would equate to 350-400 students) and so qualify for the \$3.00 per student price.

## To Access the site

Go to <http://my.livewirelearning.co.nz>

Then

- Click on the **Create Your Profile** button to create a profile for yourself. Do NOT use the subject code as part of your login profile - it will not take you into that subject from there and will be difficult to remember.
- You will then be taken to the CHOOSE A SUBJECT page.
- Click on the general subject, e.g. **English** and then level of your choice, e.g. NCEA Level 1
- Click on the link ([click here to install](#))
- Copy and paste, or type in, the corresponding subject specific 5 day licence code - see below:

## Mathematics:

Years 7 - 8 – VJCYVVSGXJ (10 days)  
Years 9 - 10 – DHDXTXACWO (10 days)  
NCEA Level 1 – ZXCMTUGSZZ (10 days)

e. Then click REGISTER.

You will be taken back to the CHOOSE A SUBJECT page again.

- Click on the general subject, e.g. **English** and then the actual subject you are now licensed to use
- Read the instructions or on the left hand grey panel, then click the subject name - 'Click Here' until you see the folders. (Each of these contains the module titles.) Click on any of these then
- Click on a module title in the LEARNING MODULE column and begin. Answer 10 questions and view your summary score. Check your progress 'speedo' under the RESULTS link.
